

S3 Choice of Course Form 2013

CfE Choices for your Fourth Year - Session 2013 - 2014

Use this form to plan and record your choice of courses. Use the recommendations departments made in your recent S3 report and support from your class teachers and Guidance teachers to help you make an informed choice. You should be thinking at this stage of a possible career path, keeping this in mind as you make your choices. You will be expected to choose six subjects for your Fourth Year. Parents have been issued with a Guide to Choices for Fourth Year.

When you have agreed these choices, in discussion with your parents and your Guidance teacher, you should return this form to the main office. Confirmation of your courses will be made based on demand and staff availability. If any issues arise regarding your choices we will alert you as soon as possible.

This form should be returned to the Main Office no later than 19 February 2012.

Pupil Name:(print)

Class:

Guidance Teacher (signature):

Date:

Parent / Carer (signature):

Date:

All S3 pupils will take English and Maths as part of their six choices for Fourth Year 2013-14. As you have four remaining choices, you should choose broadly across the curricular areas shown below. Use this layout to make your choices. You may choose two courses from one curriculum area. Then your two remaining choices must be from different curriculum areas. This will ensure you have a broad range of subjects. German can be one of these options. In Technologies you cannot choose two Business courses or two HE courses. In Expressive arts you cannot choose two PE course. Once you have chosen from the Curriculum areas below, see if your choices fit the column options on the next page. You may also wish to choose a college option (see back page) in place of one of your four options (not in place of English or Maths). If you choose a college option you will still need four choices in case you are unsuccessful in gaining a college place. Remember, you will be expected to take your five best subjects at the end of Fourth Year into Fifth Year.

Curriculum Area	Courses	Choice √
Languages	English	√
	German	
Maths	Maths	√

Science	Biology	
	Chemistry	
	Physics

	Engineering Science	
	Graphic Communication	
	Hospitality: Practical Cookery	
	Early Education and Child Care	
Expressive Arts	Art & Design	
	Music	
	Physical Education	
	Sports and recreation	

Please refer to the Menzieshill High School website for details of all the CfE courses on offer (<http://menzieshill.ea.dundeeecity.sch.uk/>). Go to the Departments TAB and see what courses are on offer in each Department. This will take you to the SQA website and you can read details of the 'COURSES' and 'UNITS' you wish to study. If you are unable to access this website, contact the school and we will provide information on the courses in paper format. These choices are provisional until the school can determine the number of staff and the number of classes which are available. We may come back to you to review your choices as a result of these limitations.
